I. Policy:

It is our policy that Technology and interactive media are tools that can promote effective learning and development when they are used intentionally by early childhood educators, within the framework of developmentally appropriate practice to support learning goals established for individual children.

II. Procedures:

- A. Computers, technology devices and TV/video are not used with infants, toddlers, or two's.
- B. Computers, technology devices, TV/video can be used with preschool aged children, as long as alternative activities are available to children who do not wish to participate.
- C. Programs/applications are previewed by Onsite Supervisors and Teaching staff who can determine if the materials are appropriate for the age of the child.
- D. Programs/applications serve an educational purpose.
- E. Computer/technology use is monitored.
- F. Computers, technology devices and/or TV/video are not used to fill time especially at arrival or departure.
- G. A system is in place to ensure each interested child has equal access to computer and/or technology devices.
- H. All TV/video use must have prior approval from the Director or Assistant Director.
