I. Policy:

St. Joseph Academy (SJA) is committed to equitable and fair treatment of all enrolled students and families. This policy outlines that SJA will provide an educational environment and adequate supports that treats students and families who find themselves in crises with dignity and respect. All students are provided with equal access to educational programs provided to other students, weather unhoused or not. All have an opportunity to learn at SJA and are not segregated or discriminated against based on their living status or circumstance. This commitment to the educational rights of homeless children and families in need applies to all services, programs, and activities provided or made available. St. Joseph Academy will do everything in its power to afford support to all students and families.

II. Procedures:

In collaboration with Academy personnel and community organizations, SJA will identify children and families in need by notification and/or request. The Mission & Integration Director will coordinate efforts to provide whatever is needed to the family.

If monetary and/or in-kind donations are offered to families, the Mission & Integration Director will coordinate with the Finance Director to allocate and distribute funds. Notification of gifts and donor information should be shared with the Resource Development Office to update in the donor databases and to issue tax deduction related thanks. All monetary donations should be given to the Finance Director.

In addition to SJA providing support, we will also share resources.
